Yoga Instructor & Yoga Teacher

INTRODUCTION:

1. The Scheme for Voluntry Certification of Yoga Professionals (SVCYP), here in after referred to as the Scheme, needs to have a set of requirements as criteria against which candidates shall be evaluated in order to being certified. This competence criteria to be used for evaluation of Yoga Professionals is also termed as competence standard.

OBJECTIVE:

2. The objective of laying down the competence criteria os standard is to provide a framework for the examiners to assess the competence of candidates for validating their competence as Yoga Professionals.

PURPOSE:

3. This document is a competence standard for assessing the competence of the Yoga Professionals desirous of seeking Certification under the scheme.

SCOPE:

4. This document is applicable to all categories of Yoga Professionals including Yoga Teacher, Yoga Master and Yoga Guru. Limitations- The standard is exclusively intended to recognise the Competency of applicant with respect to the various levels as defined in the scheme and makes no claim at the therapeutic competence of the Yoga Professional.

DIRECTOR MESSAGE

Education is the weapon through which every battle of life can be won. While education is the fundamental right of human beings, it is the light through which we can make the lives of many people not only our own but also light and development. Even today, many children in the country are deprived of education due to lack of financial and educational institutions. This problem is not only in rural areas, but also in the narrow streets of urban areas. It is not that the government or the state governments are not making efforts. Not only governments, many organizations are also striving at the grassroots level, but according to the population, it is still difficult to provide education to every people. We have also set up Shreya Education Council & Digital Education to make our sacrifice in the yagya called education. It will be our moral duty to provide education from house to house.

Because only by education can a person improve his standard of living and support the development of the country. Without education, life becomes meaningless. The importance of employable education, not just intellectual, is increasing over time. It is proven that Kaushal is a prosperous country. We have to make every hand skilled by taking Indian values ??together. Only then can we place the country first in the line of the most developed and prosperous countries globally. For this, everyone will have to be determined and try at their own level. We have also taken this step.

Director
Dr. Vijay Kumar Yadav
